"May I have the favor of a reply, stating your willingness to take part in such a meeting, and with your suggestion as to when and where you believe it could most advantageously be held?"

A resolution deploring the prominence given to crime in the newspapers was adopted by the Chicago Woman's club, meeting Wednesday. The resolution commends the Des Moines Register on its experiment of segregating crime news and keeping it from the front page.

#### COLLINS GIVES POINTERS

Tips on how to prevent your home from being burglarized are contained in the following, the second of a series of regular weekly bulletins issued by Chief of Police Collins:

#### BY MORGAN A. COLLINS.

This is the season that burglars and sneak thieves are more likely to ply their vocation than at any other time of the year.

The week ending April 18 showed that the police department received twenty-five reports of burglaries throughout the city which is a decrease of nine burglaries for the corresponding period of last year. Many of these burglaries were the result of carelessness on the part of the victim and could have been prevented.

Here are a few hints on how to guard your property when absent from your home or place of business: Burglars will rarely enter a home where there is a light burning. It is a bad practice to leave your home in total darkness when you leave at night.

When you leave your house don't advertise the fact by pulling down the shades or by leaving a note in the letter box saying that you will be back at such and such a time. Sneak thieves profit by such advice. It is an invitation for them to enter.

Every door or window in your house should be securely fastened before leaving it.

Try your door when you go out, and make sure that it is locked. Snap locks do not always work properly and you may leave your home an easy prey for a thief.

When you leave your home your shades should remain raised. Your key should not be left over the door or under the mat.

If you see a suspicious person in the halls of your apartment house or loitering about your home notify the police at once by calling Police 1513.

#### USE THE GALLOWES TO STOP KILLERS, STATE'S APPEAL

"The way to stop these gunmen is to hang them. They killed a policeman. They didn't give him a chance for his life. They shot him down. Now they throw themselves on the mercy of the court. They beg for mercy. The state asks, Your Honor, to hang them."

Those were the words of First Assistant State's Attorney George E. Gorman as he asked Judge Thomas J. Lynch yesterday to send George Meade and Raymond Carroll to the gallows.

Both have pleaded guilty of participating in a robbery where Policeman Frank McElroy was shot and killed while trying to protect the pay roll of the Stearns Lumber and Stone company, 2700 Levee street, last July. The defense attorneys placed the blame of the shooting on two other men who have not been apprehended.

After hearing the testimony Judge Lynch took the case under advisement and will give his verdict May 2.

or your nearest neighborhood police station.

Cooperate with the police department and guard yourself and your home against crime.

#### SEEK 10,000 NEW MEMBERS FOR REFORM BODY

The Better Government association will begin a campaign next Monday to obtain 10,000 new members and to raise a budget of \$153,000 for its year's work.

A dinner will be given in the Morrison hotel Monday evening. Fred B. Smith of New York, of the Committee of One Thousand, will be the principal speaker.

Paul A. Westburg, president of the Westburg Engineering company, is general chairman of the campaign. Many prominent men are members of the big gifts committee, of which John Nuveen Jr. is the chairman.

CHAUFFEUR DIES OF WOUNDS. Robert Harris, colored, 30 years old, 4825 Campbell avenue, a chauffeur, who was shot April 18 by Mrs. Lucille Robinson, also colored, 1840 Federal street, died yesterday in the county hospital. Mrs. Robinson is being held pending an inquest.

#### WHEELER SEES ACQUITTAL AS CASE NEARS END

Jury Probably Will Be Given Issue Today.

#### BY PHILIP KINSLEY.

Great Falls, Mont., April 22.—[Special.]—After eight new witnesses had been summoned from the east, several of whom had already started for this city, both government and defense in the trial of Senator Burton K. Wheeler decided suddenly this afternoon to rest their case.

Arguments to the jury will begin tomorrow morning, and it is expected that the year old controversy over the Democratic senator's activities in the Gordon Campbell oil land suits will be in the hands of the jury by night.

#### Wheeler Expects Acquittal.

The defense expects a quick acquittal. The government would not be disappointed with a disagreement, and considers that sufficient evidence has been presented to justify a verdict of guilty. A conviction carries a fine of \$10,000 and two years in prison; also, it means that Wheeler would lose his seat in the senate.

It had been practically agreed earlier in the day to hold the evidence open until Monday, but the attorneys finally decided that the jurors might become irritated at being kept locked up for such a long period in idleness and might blame one side or the other, thus coloring their decision.

The special point reserved for rebuttal was the testimony of Attorney George B. Hayes of New York concerning an alleged offer from Senator Wheeler to him to split a huge fee if Hayes would make formal appearance.

before the department of the interior for Wheeler's client, Campbell.

#### Center Attack on Hayes.

Assistant District Attorney Alexander Lehman of New York was called by the defense to attack Hayes. The government in turn called William E. Wilcox, former chairman of the Republican national committee; Louis Plucher, a New York architect; and Charles T. Craig, controller of the currency of New York, to testify to the good character of Hayes. Henry Stern of Buffalo was called by the defense and the government had witnesses to attack him.

So they agreed to throw it all into the same heap, telegraphed the witnesses not to come, called in the jury and formally rested.

Unlimited time has been allowed for argument, but there will be only two addresses on each side. District Attorney John L. Flattery will open and close for the government. R. P. Stewart, special assistant attorney general from Washington, will not speak, as he feels this is a case for Montana lawyers to decide.

Senator Thomas J. Walsh and William F. O'Leary will argue for the defense.

In its last analysis the case must rest upon the effect of Senator Wheeler's own testimony before the jury. The government will claim that he contradicted himself, but in general he made an effective witness, clinging fast to the story that all his actions in Washington on behalf of Campbell were those of friend and senator, that his only legal work, the only thing for which he was paid, was the Montana state litigation.

#### Wheeler Cross-Examined.

The cross-examination of Senator Wheeler by District Attorney Flattery was concluded after an hour's session of the court this morning.

Senator Wheeler said that he called upon Solicitor Edwin S. Booth of the department of the interior on March 15, 1922, discussed Campbell's financial affairs with him, and told Booth he was going to Europe.

Q.—Did you tell him you were going to New York? A.—I told him I was going to Europe.

Q.—Then, on the 16th you were in New York, registered at the Waldorf-Astoria? A.—Yes.

(This is the day of the alleged meeting with George B. Hayes.)

Q.—You were at a dinner party at

Mrs. Harriman's. Is that the widow of the railroad magnate. A.—No, Mrs. J. P. Harriman.

Q.—The millionairess? A.—I don't know her financial condition.

A letter written by Mr. Booth to Wheeler June 16, 1922, was produced by the government. Senator Wheeler read it frowningly and said that while he probably received it he did not recall it.

The letter made reference to a luncheon engagement of Senator and Mrs. Wheeler with Mr. and Mrs. Booth and contained this paragraph:

"You will recall that when I talked with you I told you of George B. Hayes in relation to Gordon Campbell."

#### Referred to Telegram.

Reference was made to a telegram which Hayes had sent to Booth in which Hayes said he had financial conditions about arranged with Campbell. Mr. Booth continued in his letter:

"I am satisfied Hayes would have gone through and a real deal could have been made in this matter."

On redirect examination Senator Walsh asked the defendant to explain this and he said:

"My only talk with Booth about this was in reference to financing Campbell. He mentioned several people, Myers and others, but I do not remember the names."

DR. CANNON SPEARS TODAY. Dr. E. Parker Cannon of New York, president of the American Church federation, will address the Executive club at a luncheon in the Hotel Sherman today. Dr. Cannon, who is regarded as one of the world's greatest preachers, will talk on "Imagination in Business."

#### CHICAGO TO AID TORNADO ZONE REBUILD SCHOOLS

Funds of \$75,000 will be given by the Chicago public schools for the rehabilitation of the schools in the tornado district in southern Illinois, it was announced yesterday.

Francis G. Starr, superintendent of schools, is seeking a fund of \$250,000 for that purpose.

Chicago's contribution will be raised by asking \$1 from all teachers—a total of \$12,000; high school pupils will be asked to give 50 cents each, or \$37,000, and \$85,000 will come from elementary pupils, who will be asked to give 10 cents each.

#### SUSPECT VICTIM FOUND IN SEWER IS GENEVA GIRL

Police Quiz Mother on Missing Daughter.

The restless, armless, and headless body of the young woman found stuffed in a sewer at Richmond street and Belmont avenue was identified as the missing daughter of a Geneva, Ill., family.

On Oct. 28 Miss Augustine, 18, her home in Perry, Ill., she drove her Overland touring car and

have not met him there. Several days passed and the mother received a report from her daughter. Alarmed, she set out to find her, and traced her as far as Des Moines, Ia., where a man had been seen on several occasions passing through St. Charles and Geneva, but police have been unable to apprehend him.

Mother and Friends Quizzed. Yesterday the girl's mother, Mrs. Charles Augustine, and B. E. Perry and H. A. Thornton, family friends, drove to the Summerdale station where they were questioned by Deputy Matthew Zimmer and Capt. O'Malley.

They told the police that the girl became acquainted with the man who operated a cleaning and dyeing establishment in Geneva. Since the daughter's disappearance they have checked up on his previous connections and activities, they said, and found many irregularities.

They told the police that in checking different towns in Iowa, they found that he had registered under many aliases in different hotels. At they found that he had been running beer out of Chicago to Geneva and St. Charles. He was supposed to have been working with a gang headed by the late Dean O'Banion, the bartender and gangster who recently was shot to death among the wreaths of his funeral shop in State street.

Similar to Geneva Murder. Based similarity between the case of this murder and the murder of an unidentified man whose body was found on a lonely road near Geneva one year ago, led officials to believe that they may have been committed by the same man, or gang of beer runners, who forced exposure.

Police Quiz Mother on  
Missing Daughter.

The legless, armless, and headless of the young woman found stuffed in a sewer at Richmond street and Bryn Mawr avenue may be Elizabeth Augustine, 22 years old, of Geneva, Ill., was another theory advanced by the police yesterday.

On Oct. 28 Miss Augustine left her home to visit her fiancé in Perry, Ia. She drove her Overland touring car and was known to have been there. Several days later the mother received no word from her daughter. Alarmed, she set out to find her, and traced her to Des Moines, Ia., where all traces of her were lost.

The may has been seen on several occasions passing through St. Charles and Geneva, but police have been unable to apprehend him.

## SENATORS MEET TO DISCUSS AUTO LAW; TWO DIE

Committee Hears Plan to  
License Drivers.

As the names of two more victims were added yesterday to the county's automobile death toll, raising the total of lives sacrificed this year to 195, announcement was made that a committee of state senators would meet here today to listen to the pleas of citizens for passage of a law which, it is claimed, will reduce the killings by one-half.

The legislators, headed by Senator Adolph Marks, chairman of the committee on license and miscellaneous, will be addressed by city and county officials and representatives of many civic and safety organizations.

**Discuss Wolf's Measure.**  
Now pending before the committee is the bill drafted by Senator Oscar Wolf, providing for licensing of all drivers, after mental and physical examinations and a similar measure offered by State Senator Richard J. Barr of Joliet.

Without notable exception, officials engaged in the war on speeding and reckless driving, including Chief of Police Collins, Coroner Wolf, Sheriff Hoffman, and Mayor Dever, have urged passage of legislation recommending examinations of drivers.

**Those Who Will Speak.**  
Among those who have signified their intention to address the senate committee are Mrs. Harold F. White, chairman of the good government committee of the Women's City club, and J. L. Jacobs, chairman of the Public Safety committee of the City club. William Phalen, 35, 2804 Prairie avenue, died yesterday of injuries received Wednesday when he was struck at Calumet avenue and 25th street by an automobile driven by Paul Tempel, 1506 North La Salle street.

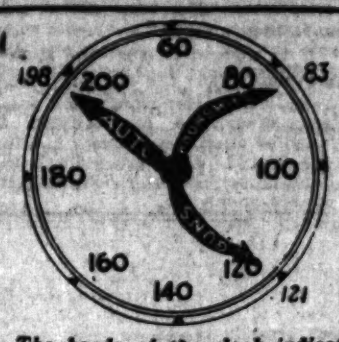

Injuries received April 21 caused the death of Charles W. Seldel, 55, 7117 East End avenue, who was struck by a truck driven by Harold Simon, 3148 Sunnyside avenue.

**CROWD WATCHES  
FIREMEN BATTLE  
BLAZE IN LOOP**  
Loop traffic was thrown into confusion and hundreds of homework bound office workers gathered on the east side of the county building early last evening to watch firemen fight a blaze which started in an office on the fifth floor of Cohan's Grand Opera House building, 118 North Clark street. The flames spread so rapidly that a 2-11 alarm was sounded almost immediately after the first firemen arrived.

Traffic in Washington, Randolph and Clark streets was tied up, and street cars were rerouted. Smoke filled Clark street in front of the county building, and that, with the clanging of fire bells, attracted a crowd.

The fire started supposedly from crossed wires in the office of the Milton Well Music company on the fifth floor. Damage was estimated at \$2,000.

[Chicago Tribune Foreign News Service.]  
ROME, April 23.—American seamen of the steamer President Arthur engaged in a riot with Neapolitan Fascist last night, as a result of which five Americans were jailed and five Fascists are suffering from broken noses and black eyes.

According to Naples reports, the trouble was due to the American prohibition laws being enforced on American ships. The seamen started to drink Naples dry the moment the boat landed. They quarreled among themselves about the bill.

## DIPLOMACY, EGGS AND RUM CAUSE CAPITAL BRAWL

(BY A STAFF CORRESPONDENT)

Washington, D. C., April 23.—(Special)—Diplomatic immunity was all that saved Señor Don Jorge Blasco, an attaché of the Bolivian delegation, from a cell today after he had figured in an early morning altercation with a policeman in an all night restaurant.

According to witnesses, the battle was fought over a bottle of rum, circulated by the Bolivian, and a freshly fried egg sandwich which the attaché insisted should be eaten by the policeman.

Policeman William J. Middleton, according to the story he told his super-

riors, was passing a 14th street lunch room this morning, when his attention was attracted by a bottle which was circulating freely among three persons sitting at one of the tables.

Middleton asked Jofre for his name. The attaché offered the policeman a drink. The policeman again demanded that Jofre give his name. This time the attaché offered the officer a fresh fried egg sandwich.

Middleton then attempted to place Jofre under arrest and, during the ensuing scuffle, a glass panel in the front door of the restaurant was broken and the officer was cut. In spite of that Middleton took his prisoner to the police station, where he claimed diplomatic immunity.

The desk sergeant turned Jofre loose and sent Middleton to the hospital. It was said that a report on the incident would be sent to the state department, but late today it had not been received.

## COOLIDGE WARNS YANK HANDS OFF IN TACNA-ARICA

Washington, D. C., April 23.—(Special)—That the administration does not consider that Americans residing in Peru properly should have any influence on carrying out the arbitral award made by President Coolidge in the Tacna-Arica boundary dispute between Chile and Peru was revealed today, when it became known that the American ambassador at Lima had declined to transmit to the state department resolutions regarding the arbitration which were adopted by the American Society of Peru.

The resolutions, however, were forwarded directly by the society to President Coolidge. They state that while the American Society of Peru must believe there was no intent of injustice in the decision, nevertheless, based on intimate knowledge of the oppressive and pernicious treatment of

the Peruvian inhabitants of Tacna and Arica, Peruvians have reason for considering that their moral rights have been ignored.

It is understood that the state department takes the attitude that the Tacna-Arica arbitration was a judicial proceeding, and the decision was based on questions of treaty and facts, and that, in such proceedings, there is no proper place for political feeling or sentiment.

## RECORD HEAT IN CHICAGO; SNOW OVER MONTANA

Mercury Rises to 8  
Above Here.

While Chicago went sweltering under a sun that shot the mercury up to 86 degrees for the day, April 23 the city has ever known. Butte, Mont., only about 40 degrees. St. Paul and Minneapolis were under a blanket of snow, seven inches deep.

Here in Chicago the unusual warmth became noticeable about 9 o'clock this morning. People looked at the thermometer, noted that it said "86 degrees," and started talking about "taking it off." By noon the temperature was 88, and by 4 o'clock it hit 90. At 6 p. m. today it had dropped to 79. Cooler weather is expected.

All the middle west was visited by unusually warm April weather. Chicago there has been only one warmer day in the month ever before. This was when the temperature rose to 83 on April 23, 1899. Forecaster A. Donnell of the weather bureau at the weather yesterday for Chicago compared with that which is usual, "or suffered—here during the last two weeks in July."

Butte lay under its heavy snow after a steady storm of nineteen hours. Omaha, Neb., reported a heavy rain and rain storm during the night and early yesterday. But it was all covered by a hot day; temperature at the same time it was 71 in St. Louis, Mo., and 85 in St. Paul—and Butte has not had such a warm day since 1900.

It was 63 degrees at the warm during the day in New York City.

## MEXICANS LAUD CALLES; VIEW OF JANE ADDAMS

Under President Calles and his government regime, Mexico is enjoying an era of stabilization and progress that it has not experienced in decades, according to Miss Jane Addams, returned from a five weeks' tour of the country.

"Conditions are unspeakable," Miss Addams said, referring to the state of the country. "Lack of sanitation and cleanliness leads to illness and the infant death rate is high. However, the general outlook is encouraging, especially among women, who have been granted suffrage in two states. Among 6,000 students of the national university in Mexico City more than 1,000 are women."

The present government is very popular with the masses of the Mexican people. President Calles enjoys tremendous popularity. He and his cabinet are doing everything possible to improve the general conditions of the country.

SBBARBARO TO TEXAS  
FOR CLEWS ON DEATH  
OF MRS. MCCLINTOCK

Determined to ferret out at first hand the circumstances surrounding the residence at Bay City, Tex., Mrs. Emma McClintock and William Darling Shepherd, assistant state attorney, left Chicago for the Texas city.

Mrs. McClintock fell strangely ill while at Bay City in 1929 and died a few days after her return to Chicago. A post-mortem examination recently conducted by John Sbarbaro, upon her body by Coroner's Chemist William D. McCall, revealed the presence of "enough mercury to kill two persons."

BULGARS GUARD  
COAST TO CHECK  
RED ARMS ENTRY

SOFIA, April 23.—(By the Associated Press.)—Travelers returning from the provinces report quiet throughout Bulgaria, but at Black sea ports numerous discoveries of dangerous explosives have been made. The explosives are believed to have been imported from Russia. A careful watch is being kept along the Bulgarian coast by motor boats and sea planes as further attempts to land arms and munitions are feared.

The allied ambassadors having granted Bulgaria permission to increase her army, the enlistment of soldiers is being carried on throughout the country.

It is stated on good authority that the government has succeeded in

tracing virtually all the conspirators implicated in the cathedral bomb outrage. Several have been shot, and others captured have made such complete avowals that the task of rounding up the remaining conspirators should be easy.

The revolutionary Tchoukoulouf, one of the principal terrorists under Vukov, the alleged communist leader in the recent cathedral bomb outrage, who was shot and killed by the police Monday, met death today in much the same manner as his chief. Discovered by the police, he refused to surrender, they declared, and was shot down.

## ALDERMEN DEFY CROWE; PROCEED TO MAKE SLATE

BY WILLIAM LAWSON.

Chicago, Ill., April 23.—(Special.)—Aldermen defied Mayor Daley's order to meet or satisfy the demands of the Chicago City Council organization committee and proceeded to make a slate of candidates for the city council.

After an all day session today, the

group of aldermen—R. A. Woodhull (7th), Joseph B. McDonough (11th), D. A. Moran (21st), and E. J. Kaindl (24th), found themselves as far from agreement with Crowe as they were when they left Chicago nine days ago.

In addition to the chairmanship of the local transportation committee, which it is almost certain will be given to Ald. McDonough, Crowe is demanding increased representation for the north side on major council committees.

There is only one thing to do, apparently, "declared Ald. Kaindl as he left today's meeting," and that is for the rest of us to get together at once on a committee lineup and give Crowe a chance to sign it if he wishes, or file a minority report."

Within twenty-four hours after it has been confirmed by the council, the new local transportation committee, would be on its way toward solution of the city's traction problem, declared Ald. McDonough, indicating his course of action if selected as the committee's chairman.

He has no traction plan to suggest to the committee, but insists he knows how a solution which will be ratified by the voters can be found.

## BOY, 15, SPEAKS FOR FIRST TIME IN ELEVEN YEARS

Milwaukee, Wis., April 23.—Ray Pawlowski, 15, spoke last night for the first time since he was 4 years old. The words he uttered were "Father and mother, I can talk."

When 4 years old Ray was struck over the head by a hammer while playing with other children, the blow paralyzing the nerve centers which control speech, according to Prof. William Duffy of Marquette university, under whose treatment the boy's power of speech was restored.

Always bright in his class work, Ray was handicapped. Prof. Duffy recently decided under certain treatment the child would be able to talk. Last night he called Ray's parents to his office and after several unsuccessful efforts Ray started to talk.

Prof. Duffy said it would be only a matter of time before the youth will have complete power of speech.

INDIANA FARMER HANGS HIMSELF. Michigan City, Ind., April 23.—(Special.)—John Pizorek committed suicide by hanging last night on a barn where he lived with his mother and brother. They had quarreled. He was 31 years old.

## EMPTIES PISTOL, CHASES ROBBER MILE, GETS HIM

After a chase of a mile through Garfield park in which six shots were fired by Policeman Robert Desay, Michael Beresa, 21 years old, was captured yesterday when he became so exhausted that he collapsed to the ground.

Beresa forced entrance to the home of Mrs. Nellie Williams, 321 North St. Louis avenue, yesterday and robbed her of a gold watch. Policeman Desay heard Mrs. Williams' screams and pursued Beresa. For a mile, the two raced, the policeman emptying his revolver, until the robber, breathless, fell.

At the Austin station, Beresa is said to have confessed to committing more than a dozen robberies.

LET CONTRACTS TO SELF; INDICTED. Chicago, Ill., April 23.—(Special.)—J. D. Wayman, former member of the city council, pleaded guilty today to an indictment charging illegal relations in contracts let for road sidewalks. He was indicted for giving contracts to himself. He was indicted for self-deception.

AMERICA AND THE GERMAN  
ELECTION.

Germany will elect a president next Sunday. The candidates are Gen. von Hindenburg, the champion of the monarchists, the reactionaries, and the more extreme nationalists, and Dr. Wilhelm Marx, a member of the Catholic or Center party. Behind Dr. Marx are marching all but the most conservative parties. The socialists and even most of the communists have not hesitated to ally themselves with bourgeois parties, forgetting their quarrels in order to bring about Hindenburg's defeat.

Germany's victorious neighbors are watching the election sharply and with trepidation. To the allied powers, it is somewhat as if the Democrats after their civil war had nominated Robert E. Lee for the presidency. The allies say that if Hindenburg is elected it will mean that Germany thinks she was not defeated and that her cause was a righteous one. If the German people, with a clear conscience before them, support Hindenburg, the allies will, rightly or wrongly, conclude that Germany will do her utmost to lighten her burden of reparations, strengthen her military power, and recapture her lost provinces. England, Italy, and especially France will be moved to take steps to prevent Germany from achieving these ends. Such action on all sides will be increased.

Hindenburg's own conduct in the election campaign has not served to weaken suspicion in the allied countries. He made his first public appearance since his nomination in reviewing a great parade of his supporters in Hanover last Sunday. Many of the marchers wore their army uniforms. The marchers passed him at the home step, reminiscent of Potsdam and the Kaiser. All this military show was significant, but it was no less significant that the address which Hindenburg delivered to a small assembly of party leaders and newspaper men after the review was over. He avoided reference to all foreign issues save one: he said he would, if elected, devote himself to the task of obtaining a formal repudiation of the clause in the Versailles treaty which acknowledged that Germany alone was guilty of causing the war. Hindenburg's words caused a stir in every capital in Europe.

It is true that ever increasing numbers of students of diplomatic history are coming to accept the view that other countries beside Germany must bear their share of responsibility for the war. The fact remains, however, that the confession of guilt which the American signed is the corner stone upon which the reparations of the treaty rest. That is why in the allied countries Hindenburg's demand for the repudiation of the clause is considered not an exercise in historical accuracy but a step toward the repudiation of the reparations debt, the strengthening of Germany's military power, and the recovery of her lost provinces. In short, a step toward the repudiation of Germany's debt.

Nearly seven years have passed since the armistice was signed. The passage of time has served to bring something approaching stability to Europe, a stability born of the gradual adjustment which have been made between victors and vanquished. The tendency of the supplementary agreements has been to lighten Germany's burden of debt, but there has been no suggestion that Germany was not defeated and must pay the penalty for losing the war.

America and Americans have no legitimate interest in Germany's internal affairs, and if the consequences of this election were confined to Germany we could view it with indifference. Unfortunately, the political and economic life of all Europe will be influenced by the result. America wants a stable Europe because stability means property and property means trade. Hindenburg's election probably will not mean war, but it will surely mean economic and political chaos. America, we believe, will be better served by the election of Dr. Marx.

## GUN COURTS AND OTHERS.

We suppose there are good reasons for setting up a court which will specialize in hearing cases of robbery and assault committed with a gun, unlawful gun holding, etc. But it seems to us every court ought to be a gun court. A special judge sitting habitually in cases involving the unlawful carrying of guns doubtless will get acquainted with all the offenders, with the sources of gun permits, and with aspects of the gun-toting evil which may escape a judge before whom other offenses are coming up for trial. But gun-toting is a part of the general problem of violence which all the criminal courts and judges must deal with. Every judge and magistrate ought to be awake by this time to the gravity of the situation and to his own responsibility for its correction, and while we trust the gun court may result in a more efficient handling of the gun-toting evil or of robbery with a gun, we hope it will not encourage any judge in evading responsibility.

We agree with Judge Bevell that the better act would be to increase the penalty for gun-toting and assault with a gun, but increasing the penalty will accomplish nothing if courts and juries will not enforce it firmly.

We believe that it would be a good thing if the police instead of attempting to arrest dangerous criminals with guns in their hands would kill them.

A STEP TOWARD THE  
SEAWAY.

A joint commission of Canadian and American engineers has been ordered after long international negotiations, to find out how much it will cost to build the St. Lawrence seaway. The engineers are also to decide whether the expense will be justified by cheaper freight rates from the middle west, how much power can be developed in the new canal, and how the current generated may be equitably divided between the United States and Canada. The commission is to present its report by May 1, 1935.

We are confident that the report will bear out all that has been said in favor of the project and that the first great step toward the construction of the canal has therefore been taken.

This is a generation of builders, and we of America are setting the pace for the world. We have the daring, the skill, and the will. We have leveled mountains. When the old world had failed, we linked the great seas. No problem presented by the St. Lawrence project will be beyond the power of our engineers to solve.

## ANOTHER BOXING BILL.

The latest attempt to raise the bar on boxing in this state and provide for reasonable regulation is now under consideration by the legislature. The measure was reached second reading, and we hope will become law in some proper form.

We realize there are many worthy people who think prize fighting is merely a brutal display. We do not favor a law compelling them or any one to go to prize fights. The point is, if boxing is to be a sport, it must be regulated. It must be a sport which is to be attended by spectators to attend them and those who do not like them to stay away.

The opposition to the various boxing bills which have been introduced in recent legislatures assumes that one adult has the right, may the duty, to prevent by law another adult from doing something the first adult does not think is good for the second adult. That the first adult may represent a majority and the second a minority does not affect the principle involved, which is the principle of private conscience in private conduct, so long as this conduct does not damage others. We think the intelligence of the American people is revolting against legislative impositions like our Illinois anti-boxing code.

## THE HANDS OF DEATH.

Some people talk as if the death clock had ticks inside of it. Sometimes it runs down, they notice, but that is only because the city editor occasionally forgets to wind it. They think the number of automobile accidents and murders bears a fixed relationship to the population.

That is wrong. A year ago on April 20, 215 people had been killed by automobile in New York City. On the same day this year the toll in New York had been reduced to 184. That was a gain of 31 lives. On the day a year ago when New York had recorded 215 deaths, Chicago had 152. This year Chicago had 184. This is a loss of 43 lives. New York has twice the population of Chicago but fewer automobile deaths.

Chicago is also in the lead in gun killings. A year ago on April 20 the gun hand here stood at 31. This year it has stood at 115. In New York this year there have been 48 fewer gun deaths than in Chicago.

We are getting worse all along the line and New York is improving. We are the murder capital, the crime capital and the automobile death capital of the white world. Every day adds to our shame while law and self-control are triumphing in more civilized communities.

## Editorial of the Day

## OUR JUNGLE OF LAWS.

In a recently published book, Arthur Train, a New York lawyer, and creator of the firm of "Tut and Tut," says in his usual picturesque way: "The greatest danger to legal reform is the obsession of the American people for making laws, which in the 123 years that have elapsed since the adoption of the federal constitution have exceeded in number the total of all laws enacted for the government of mankind since the time of Adam to the inauguration of Washington." We do not suppose that Mr. Train is or can be familiar with all the records, many of which have indeed perished, of legislative action in the Adams era—if there were any—we have little knowledge. And so of other periods in the world's history.

But the Train estimate is for practical purposes way enough the truth. Our people undoubtedly are law man. Even yet our brains intelligent men and women say "There ought to be a law." Herbert Spencer many years ago called attention to the great evil of over-legislation, and how it even tended toward a sort of servitude, as he showed in his tract entitled "The Coming Slavery." There may be a socialism that does not embrace a single so-called socialist dogma, the socialism that looks on the state as a universal providence, as the agent by whom and through whom everything must be done. Socialism and paternalism are very close kin.

It is a mark of childishness and childishness naturally goes with paternalism to assume, as many people do, that when a law is enacted everything is done that needs to be done. That this would hardly be a greater error. We have so many laws that it is not possible for even the best citizen to avoid violating some of them, of whose very existence he may be wholly ignorant.

The old presumption that a man is supposed to know the law has pretty near become a presumption that a man knows what he cannot know. It is still true that ignorance of the law excuses no man, and yet ignorance of the law is the portion of many.

Mr. Train shows that in a recent five-year period more than 22,000 laws, state and federal, were passed, and that to interpret these 22,000 decisions of courts of last resort, filling 60 volumes were required. We are, he says, passing 12,000 statutes each year. As we pile up laws and create new ones crime increases as indeed we might have expected. This condition has been brought about by people who were "in a hurry" to get things done, who assumed that they were doing a law was passed, and who looked on law as a sort of magic. And that is the worst feature of the case. Law itself is weakened, and the state is weakened. The law is the last resort. This has always been so. Other people have suffered from the same evil, though in less extreme degree, and have dealt with it in various ways. There is great need for an education that shall make clear the functions of law, its limitations, and the unfortunate effect on the character of the citizen when there is too much of it.

## WANT INTEREST IN AIR.

Mrs. Eugene, out for her Saturday night shopping, got mixed up in a street war, and was nearly killed by the innocent who knocked down and trampled upon.

"Stand back, there!" shouted a benevolent passer-by. "Give her air and fetch some brandy quickly!" "Never mind about the air!" murmured the victim in a faint voice—London Telegraph.

## BOOKS ON HEALTH.

Nearly every publisher of medical books now has a line of health books for the laity as well as his several lines for physicians and health officers. Unfortunately, the medical publishers are slow to offer these health books through general book stores. Some general book stores have a department for medical books in which these health books for the laity are to be found. Occasionally health books for the laity are seen on sale in general book stores without medical book departments and even in the book divisions of department stores.

In many cities one or more medical book stores can be found. Even if there is no medical book store in a given community, and no general book store with a medical section, and no department store carrying health books, it will generally be possible to find a book store which has one or more book catalogues. In such places the proprietor will generally permit his customers to look through these catalogues and pick out the books by name. In most cases the establishment will order any health books called for.

In addition to these large or consolidated catalogues there are the catalogues of the individual publishing houses. In such catalogues the advertisement of each book gives the name, the author, some of the qualifications of the author, the size of the book, its cost, and a brief description of the field covered and the method of covering it. In many cases book stores carry these publishing house catalogues and will permit their buyers to look through them and will order books from them for their customers.

In some instances organizations have catalogues of books on the subjects these organizations are interested in. For example, the American Social Hygiene society has a catalogue of books on social hygiene and related subjects; a brief analysis of the field covered by each book is given. Among the societies having catalogues of books are the American Social Hygiene society, American Public Health association, National Tuberculosis society, all at 370 7th avenue, New York City, and the American Medical Association, 535 North Dearborn street, Chicago, Ill.

The fact is, however, that there is more a symptom than a disease. It is a symptom frequently encountered in severe cases and sometimes in rheumatism and in some other diseases.

In purpura hemorrhagica the blood does not coagulate readily. This fluid has a tendency to collect in the joints, and it is a symptom frequently encountered in severe cases and sometimes in rheumatism and in some other diseases.

## WILL KEEP COLONIES

BY HENRY WALES.

(Chicago Tribune Foreign News Service.)

PARIS, April 23.—During the senate debate on the budget for the colonies this afternoon, Minister of Colonies Hesse, speaking on behalf of the government, indignantly repudiated any idea of ceding any foreign possessions for the liquidation of French debts.

Although the colonies are a frightful drain on the budget, requiring heavy subsidies annually, the speaker states the loss of any of them, especially Indo-China, would reduce France's prestige and lessen the nation's man power, as France is losing its population at home and relies on colonial blood for men for its future armies.

Senator Gaudin de Villaine opened the debate, stating:

"Three or four years ago I proposed in order to better the nation's financial situation to cede some colonies, for instance, Indo-China, which we cannot easily defend anyway. Today the occasion of selling the colony is less favorable, but if you cannot sell Indo-China, then you must defend it."

M. Hesse said:

"If we sold Indo-China we should get an enormous price."

Then Senators Cheron and Berenguer interrupted, saying:

"Scandalous! No moral of French territory leaves the flag."

Resuming M. Hesse explained:

"The government would never consent to relinquish the colonies. It allowed to it because M. de Villaine raised the question. Apart from the moral issue, France would lose the role of a great power and all rights and interests in the far east."

## CONFIDENCE IN INSULL.

Chicago, April 21.—Chicago demands and must have an immediate betterment and extension of transportation services. Now that the people have rejected municipal ownership, in order to save waste of time, trouble, and enormous expense why not turn the whole business over to Samuel Insull—legally, of course, and pay him, "Mr. Insull, the good people of Chicago have faith in your knowledge, ability, and integrity; they have been exceedingly patient and long suffering; they desire and must claim the best in the way of safe and rapid transit; they know their interests are absolutely safe in your hands; Sam, get busy, and work would commence at once, giving employment to thousands and Chicago would get the best transportation service on earth.

About twenty years ago I was introduced to Mr. Insull by a mutual friend—and I referred to him many complaints against a "Public Service Corporation" with which he was connected, which complaints were immediately taken care of most efficiently, and thereafter the best of service was rendered our people, consequently I have never forgotten Mr. Insull and the continued interest he manifested in our welfare, and his successful management of public utilities verifies and emphasizes this statement.

## GLENCOE HAS TWINS, TOO.

Glencoe, Ill., April 18.—I was very much interested in an article in yesterday's Tribune and also in pictures in the Tribune this morning concerning the Lake Forest twins. I note you say Lake Forest has, I believe, twenty sets of twins, and I question if Lake Forest has anything on Glencoe, for there are almost that number to my personal knowledge and I believe a number of sets with which I am unacquainted. As a matter of fact, Glencoe has three sets of twins in one family, all of whom are living, which I believe is something that Lake Forest cannot boast of.

## U.S. SAFE FROM PACIFIC ATTACK, SIMS DECLARES

Wash., April 23.—(Special.)—Admiral William Sims, retired, commander of the American fleet in the Pacific, declared today that the United States is safe from any attack from the Pacific. ## Newest Notes in Misses' Spring Street Apparel

### Coats Are of Silk as Well as Wool

Priced at \$50, \$67.50, \$75 and \$87.50

THIS collection of Coats brings the season's smartest style features at moderate prices. Some of the Coats are adaptations of imports, and all of them have a distinction that will please even the most discriminating. The Coats are excellently made of materials of a quality difficult to duplicate. Such fabrics as bengaline, satin, joscena, jewel-tone—these are indeed the season's favorites.

Bengaline with wide fox border, \$87.50. Black satin, faille silk, black or colors, \$75. Black or blonde satin and cashmere cloth, \$50. Twill bloom with flares and revers, \$67.50.

Misses' Coats, Sixth Floor, Middle, Wabash

### Youthful Ensemble Suits

Using Effectively Crepe with Twill, \$65

THESE Suits are in lines to enhance the slim figure that dominates today's modes. The coats are of fine charmeuse, well tailored and with a charming simplicity about them. The frocks are of heavy flat crepe of a rich quality, durable and smart. The one at the left uses charmeuse in wigwam, gingersnap, chili, or tiger's eye with a matching frock that is cleverly embroidered. The other is of charmeuse in navy, gingersnap or chili with a frock which has a smart plaited tunic and cunning short sleeves.

## Women's Charming French Frocks Are Exceptional Values at \$38.75

MADE by hand with the enviable expertness of French needlewomen, and expressly for Marshall Field & Company, these Dresses were selected for afternoon and evening occasions demanding more formal clothes. Of lovely cool fabrics—georgette and flat crepe, bead designs effectively wrought, many with details, too, of fine French tucking, they have the great advantage of a delightful color range. In the evening group, pervanche blue, apricot, flame, orchid, jade, gold, coral, black and white; for afternoon, tan, navy, black.

## Ultra-Fashionable COATS At a Distinct \$15 Saving \$28

\$15 is the saving you get on a \$28 special in this sale. But even more striking than the values are the stunning styles, the wonderful way in which they are made up from choice materials and furs, and their unmistakable class. To mention the materials and furs would be to enumerate the season's most favored modes.

Another Matthews Scoop: An offering of really fine ensemble suits for only \$25. Think of it! A frock and a coat that may be worn separately or as the tout ensemble, at about the price of the frock alone. Coats of twills and other cloths; also silk frocks of printed silks and crepes.

## The Swagger New Innovation PRINCE of WALES Coats \$19.75

You've seen these perky double-breasted coats with the mannish lapels and velvet collars. A new style, hardly a week old, and all the go with smart dressers. Every one's been paying \$35 and \$45 for them. Matthews features them at \$19.75.

## Final Clearance Sale TRIMMED HATS Over 300 Hats \$2.00 Values to \$10

Every Style and Color to Choose From

INDIVIDUAL touches are what give Frocks distinction, and distinction is the close associate of smartness. Here are shown two charming Frocks that are made on the simplest of lines but with cleverly detailed trimming that puts them quite out of the ordinary class. And the prices are so reasonable.

\$35—The Frock at the left is of firm, heavy flat crepe which uses many tucks and buttons to achieve a tailored smartness. The ties are in a contrasting shade. In Patou green, pervanche blue, black, gray, or black and white.

\$35—A Frock not sketched is of crepe Elizabeth in the two-piece effect, with pockets embroidered in a contrasting shade. The skirt is circular and a slip of radium makes the Frock complete. In pigtail blue, cork, gray, tan or red.

\$50—The slim crepe Elizabeth, right, has ingeniously scalloped folds at the bottom; sleeveless yoke and trimming of ecru lace. In Patou green, black, gray, rose, cork, or pigtail blue.

## Radio Night's Entertainment Rather Vapid

Wednesday Kick Leaves Elmer Lecturing.

BY ELMER DOUGLASS.

I came near stating that Wednesday's musical and entertainment program made a wreck of things last night, but that would never do. Well, but then, and not enthusiastic.

Anticipation ran a little above normal for an evening's opening treat with the second act of "Madam Butterfly" by the WLS opera company at 7:30. But the piano was too close to the microphone and the soloists, especially the soprano, too far away, and the microphone didn't have enough to move over towards them. Otherwise this concert was all right.

A slight move higher on the dial to WBBH at 7:45, and—bang! Some more things. Followed by some somewhat strange and somewhat novel, but more of less pleasantly familiar. This turned out to be the Coriolanus overture (Beethoven) played by the Orpheus orchestra.

Considerable time was spent listening to WBBH between 7 and 8. This station comes in exceptionally clear at this receiving point, and the musical offerings are good. One can almost feel this station is destined to be a considerable factor in our daily radio musical life.

This quiet night is perhaps as good as any to make the admission that there isn't a single morning but this station criticizes himself sharply for the seemingly never ending errors of omission or commission, too numerous to mention.

Playing made that personal admission. It may perhaps be stated with better grace that ordinarily all mentions of programs in this column are preceded by a qualifying consideration of the station's tone, announcing, etc.

Many a fine artist is not mentioned because of some deterring factor for which the artist is not responsible. Among the deterrants there is the impression made by a few announcers in Chicago, and elsewhere that so and so will sing so and so "for you." It is ordinarily understood that they are singing for the radio audience.

Recently one announcer was heard announcing Debussy as though it were spelled "De-bussy." Another announcer was heard pronouncing Rachmaninoff as though it were spelled "Tsch-a-koffsky." But one can not and must not criticize announcers of the mispronunciation of these terrible foreign names.

Finally, one strong word about the announcing of songs in a foreign language. Americans do not generally understand foreign languages. There is, if a title in a foreign language is announced it should be followed by an English translation.

Where are we at, O, yes. The Europa College Girls' Glee club at 7:30 P. M. with five solo voices in a program of modern standard songs and an instrumental trio at 10:30. Moment playing Mendelssohn's String Trio in D minor. "More converted numbers by the glee club," and that's plenty for the night.

## 400 STUDENTS TO SEE COOLIDGE AT WASHINGTON

Four hundred high school pupils will leave over the Pennsylvania railroad tomorrow for Gettysburg, to view the famous battlefield and then go to Annapolis to see the trip.

Pupils from Lane, Waller, Harrison, Crane and Lake View will leave at 6:30 a. m. tomorrow; those from Lindbergh and Schuylar will depart at 10 a. m. and students from Wabash will get off at 1 p. m. The group will return May 2.

Teachers will accompany the students, a teacher chaperone being appointed for each twenty-five pupils. The trip was made possible by a savings plan in the high schools.

John F. Hartnett, with the Board of Local Improvements for 11 Years and a City Employee for 24 Years.

April 20, 1936.

Dynell Spring Water Co.  
Gentlemen:—For many years past I have been troubled with a chronic stomach and digestive system. I tried everything under the sun with no decided improvement. I had decided to go to Mayo Bros. for an operation when I heard of Dynell Water. Having tried everything I heard of, I thought I would try it for several weeks. I had only used this wonderful water but a few weeks when I found myself improving, and now after using it for several weeks I am a well man, and I am advising all those who have any kind of stomach trouble to try Dynell. It is truly the Fountain of Youth and worth its weight in gold.

(Signed) JOHN F. HARTNETT

(City employee 24 years; with Board of Local Improvements 11)

Another recent letter says: "I have been troubled with DIABETES for over two years and have doctor'd all that time without any results. I considered drinking Dynell Water about the first of August and at Thanksgiving time had an examination and there was not a trace of sugar found, all due to good old Dynell Water. It has turned me up and made me feel like a new man." Peter Thorpe, 6929 Union Ave., Chicago, Ill.

## FRANCE EYING GERMANY TO SEE WHERE TO TURN

to Swing to Right if  
Hindenburg Wins.

BY HENRY WALES.

Washington, D. C., April 20.—[By The Chicago Tribune.]  
PARIS, April 20.—All France is  
trembling with anxiety the result of  
the German presidential election, which  
will be held Sunday. Should Gen. von  
Hindenburg, the candidate of the Ger-  
man nationalists and monarchists,  
win, France is almost certain to make  
a swing toward nationalism, typi-  
fied by Premier Poincare.

There is no doubt but that the  
French people will want to shove the  
German majority considerably  
to the right to counterbalance the Ger-  
man shift to the right. The French  
people feel that with the German reaction-  
ary in the middle again there will be  
a renewal of the old war threats, this  
time with Germany seeking to avenge  
its defeat.

German French Politics.  
Consequently, until the German as-  
sembly is cleared, French politics is  
likely to be on a stable basis. The  
German reactionaries to entrust full power  
to the reactionaries who, it is feared, be-  
cause of their reactionary attitude,  
will not present a stern enough front  
to Berlin.

Naturally, all discussion of a sec-  
ure treaty designed to stabilize the Euro-  
pean situation will be more or less in  
the background until it is known  
whether the monarchists will rule in  
Germany.

Likely to Aid Right.

However, there are sections of opin-  
ion here which assert that the election  
of Gen. von Hindenburg might  
strengthen the French left wing, as a  
large part of the country, especially  
the communist elements want to avoid  
war at any price. But this possibility  
is slight, for the French nationalists  
undoubtedly would make great gains  
should the republicans lose in Ger-  
many.  
The possibility of new French elec-  
tion hinges to a considerable extent  
on the German results. If Wilhelm  
Hart, the republican and moderate  
candidate wins, the new Poincare gov-  
ernment may be able to avoid going  
to the polls for some time.

## 'EMIR OF KURDS TO BE DEPORTED TO CHERBOURG

Washington, D. C., April 20.—Depor-  
tation of Prince Zerdeshian, self-  
styled emir of Kurdistan, to Cher-  
bourg, France, was authorized today  
by the labor department. The author-  
ization was based on information from  
officials of the White Star line that the  
emir came to this country from Cher-  
bourg.

Await 'Emir's' Visit.  
New York, April 20.—Prince Zer-  
deshian, self-styled emir of Kurdistan,  
will be deported aboard the first White  
Star ship to leave for Cherbourg after  
the arrival of his passport with the  
visa of the French embassy.

## Condemned Man's Last Wish: 'Not to Be Beheaded'

PARIS, April 20.—[By The Associ-  
ated Press.]—An executioner awaits  
Laudis Leduc, an Arab convicted of  
murdering two Portuguese and wound-  
ing three others, in La Sante death-  
house this morning and bade him dress  
for the guillotine. Extending the usual  
cigaret and glass of rum, the warder  
asked: "What is your wish?" The  
condemned Arab replied: "I wish not  
to be executed." The guillotine knife  
fell at 5:45 o'clock.

the first decapitation in Gera in seven-  
teen years.

## TELLS D. A. R. OF CHICAGO AID TO NEW AMERICANS

Illinois Woman Elected as Vice President.

(BY A STAFF CORRESPONDENT.)  
Washington, D. C., April 23.—(Special.)—Through the efforts of the D. A. R., court naturalization proceedings in Illinois have been transformed from tiresome, routine performances into impressive ceremonies. Mrs. Charles E. Herrick, state regent, tonight told the delegates attending the thirty-fourth continental congress here. Twenty-four chapters, she said, have operated in the work.

"The state chairman of Americanization," she said, "says there is a very great improvement in the matter of court ceremonies, due to the encouraging Chicago situation. Within a year bond judges, indifferent and rude bailiffs and clerks who have gone through with the naturalization process as a duty for which they had no taste have awakened to their privileges and responsibilities in making new citizens, and we are no longer saying court ceremonies are impossible, but are making of them great events."

Two New Illinois Chapters.  
Mrs. Herrick reported that two new chapters have been organized, making a total of 91 in the state, with 7,886 chapter members and 725 members-at-large. Only one state, South Carolina, surpassed Illinois in the amount of money spent on patriotic education during the year. Illinois' total was \$7,138.

"The policy of the Illinois daughters the last two years has been to accomplish each year some definite piece of work which would stand for all time to the credit of Illinois," Mrs. Herrick said. "The special work for all this year has been the raising of the Julia Green Scott scholarship for the Matthew T. Scott Jr. academy at Phelps, N.Y., in memory of our late ex-president general, Mrs. Matthew T. Scott. Mrs. Scott's own chapter, the Letitia

Green chapter at Bloomington, raised \$1,000 of this fund."

Four suggestions have been worked out, Mrs. Herrick said, as a plan for conducting the better films campaign in Illinois. These she summed up as follows:

"Start in the home and keep your children away from uncut movies."

"Your presence is your approval."

"Your absence is your disapproval."

"Comment only the best pictures, for unfavorable comment is a sure drawing card."

The seven candidates for vice presidents general nominated last night, including Mrs. John H. Hanley of Monmouth, Ill., were elected today without

opposition. President Coolidge received the visiting delegates at the White House this afternoon. Tomorrow has been set aside for the annual pilgrimage to Mount Vernon.

(Chicago Tribune Foreign News Service.)  
Mexico City, April 23.—"As all debts due public officials and other employees of the government, some pending several years, are now paid, the government will begin payment of commercial debts, with the expectation of having them all paid by the end of the year," declared President Calles last night through the department of the treasury. It is stated that Gen. Calles intends to resume payment of the foreign debt as soon as the treasury will bear the necessary expenditures.

## SENATE APPROVES INCREASES—O. K.'s Anti-Crime Bill

BY FARKE BROWN.  
Springfield, Ill., April 23.—(Special.)—Records for speed in the slowest of the Illinois legislature were made today, when the state senate passed eighteen bills.

One of these, the McCullage bill, increasing the bond issuing power of the Chicago sanitary district, almost had been passed by the house, and was sent to Gov. Small for signature. Although the governor is politically opposed to the present management of the district, it is believed that the fear of sentiment, downstate as well as in Chicago, will compel his approval.

At the top of the list of bills passed were anti-crime measures. They were the Keatinger twin bills, establishing a \$5,000 bounty on the heads of bandits, and the deadly weapon law, passed on as the result of long study by joint subcommittees of the two houses of the assembly.

**Permit Evil.**  
This latter measure is a repeal of the earlier act, which led to a well-guarded system for issuance of deadly weapons permits. The bill puts an end to the permit evil and prohibits carrying of weapons except by peace officers and men engaged in several specified occupations, specified in law. It now goes to the house, with the advance approval of a committee of the Judiciary committee of that body. Its acceptance is considered certain.

The two McMurray bills, extending the period of the two land-lord-tenant bills passed four years ago during the height of the rent war, were approved by the senate. The bills were introduced to celebrate the anniversary of this defense against summer action by the landlords.

**Some of Bills Approved.**  
Among other bills passed which went to the house for concurrence was the Harbor bill requiring at least a year of instruction in the school constitution in the public schools. The Harbor bill establishing "Illinois as the official state song, and the bill authorizing creation of municipal districts, with power to levy taxes of not to exceed 10 cents a dollar of assessed valuation.

To consider the whole list of bills of a gasoline tax. The bill, introduced by Sen. E. Sterling, on nomination of a committee, named a special committee consisting of Senators D. L. Lewis, Cuthbertson, Keatinger, Carter, and Hughes.

## LEGISLATIVE BOARD

### GRANTING POWER UP TO GOVERNOR

#### Senate Approves Increase in K's Anti-Crime Bills

BY PARKE BROWN.  
Springfield, Ill., April 23.—[Special.]—Records for speed in the slowest session of the Illinois legislature were made today, when the state senate passed eighteen bills.

One of these, the McClurg bill, increasing the bond issuing power of the Chicago sanitary district, already passed by the house, and now before Gov. Small for signature. Although the governor is politically hostile to the present management of the district, it is believed that the force of sentiment, downstate as well as in Chicago, will compel his approval.

At the top of the list of bills passed were anti-crime measures. They were the Hunter twin bills, establishing a \$10,000 bounty on the heads of bank robbers, and the deadly weapon bill, passed as the result of long study by joint subcommittees of the two houses of the assembly.

Both bills on Permit Evil. The latter measure is a repeal of the 1911 act, which led to a well-known system for issuance of deadly weapons permits. The bill puts an end to the permit evil and prohibits carrying of weapons except by peace officers and men engaged in several occupations, specified in the law. It now goes to the house, but with the advance approval of a subcommittee of the judiciary committee of that body, its acceptance is considered certain.

The two McClurg bills, extending the period of the two landlord-tenant bills passed four years ago during the height of the rent war, were approved. Opponents for tenants' associations were inclined to celebrate the continuance of this defense against summary evictions by the landlords.

Some of the bills approved. Among other bills passed which now go to the house for concurrence were the Harbour bill requiring at least one year of instruction in the federal constitution in the public schools, the Harbor bill establishing "Illinois" as the official state song, and the River bill authorizing creation of mosquito abatement districts, with power to levy taxes of not to exceed 10 cents a \$100 of assessed valuation.

To consider the whole file of the question of a gasoline tax, Gov. Small, Sterling, on nomination of the executive committee, named a special committee consisting of Senators Barr, Cook, Cullerton, Kessinger, Carlson, Ross and Hughes.

Recommendation of a special committee on revision of the election laws, a similar committee on elections

## START QUIZ AS \$2,250,000 GRAIN FIRE STILL BURNS

Firemen fought all last night and will still be fighting today in an effort to extinguish the blaze which early yesterday morning destroyed two grain elevators in the Bridgeport district at 23d and Halsted streets with a loss of \$2,250,000. They are now trying to save all they can of the smoldering grain, worth, when it was in the elevators, close to \$1,000,000.

John W. Coverdale, secretary-treasurer of the Grain Marketing company, which leased the elevators, estimated yesterday that a third of the grain might be saved provided it is not washed until it is moist or heated until it sprouts.

Discount Incendary Report. And while the firemen were working to save what grain they can the fire marshal's office and other officials were investigating rumors of in-

disaster in this fire and one in a warehouse which started later. They scoffed at the rumor in the case of the grain fire. Richard Carroll, 2421 Long Avenue, Halsted street bridge tender, who reported the fire, declared it started in the cupola of one of the elevators. Grain handlers say that points to spontaneous combustion. In the case of the \$2,250,000 blaze that wrecked the fifth floor of the Elmhurst, Spencer-Bartlett company warehouse at State street and the river, officials are not so sure.

Firemen extinguished one fire there at 12:30 o'clock in the morning. It was a pile of old rags blazing in a box. They carried the box out of the building and dumped it into the river. At 4 o'clock they were called to fight the \$50,000 fire, raging on the same floor.

Doubt Firebug Theory.

"It might have been a fire bug,"

said Jeremiah McAuliffe, first assistant fire chief, "but I don't think so. The building is well guarded. The first blaze probably was caused by spontaneous combustion. The second may have started from a spark from the box that my men carried out."

### Neptune Ceremony Delights

Wales; Takes to Poetry

ABOARD H. M. S. REPULSE

April 23.—(By the Associated Press.)—The ancient ceremonies of the sea, attendant upon crossing the equator, inspired the prince of Wales today to express himself in poetry. The prince was highly amused with the line honored customs carried out as the ship crossed the line, when hundreds of sailors who were making their first crossing were ducked in a tank. The prince expressed his appreciation in a verse of his own composition.

### 2 GRAND PIANOS LANDED SAFELY BY AIR FREIGHT

Washington, D. C., April 23.—Two baby grand pianos were landed at Bolling field here today by an 1,900 horsepower Sikorsky airplane, which brought them from New York, along with six passengers.

The trip marked the first trial flight of its kind of the General Airways system, and the plane was piloted by Igor Sikorsky, its designer. The pianos were brought as freight to a Washington music store. One of them later will go to a community center in which Mrs. Calvin Coolidge is interested.

## Only 71 more homes to be given oil heat under this amazing offer

48 hours ago we offered to place Kleen-Heet in 103 homes under three great inducements. The response has been tremendous. Now only 71 may still benefit. Investigate this offer immediately. It ends May 6th.

You who are interested in up-to-date heating methods, who are sick of old-fashioned furnace drudgery—carrying ashes, shoveling coal, building fires—you have one more chance to take advantage of Kleen-Heet's special offer to 103 home owners.

You may have a Kleen-Heet installed in your present heating plant in 4 hours. Clean, safe, dependable. 78,384 people enjoyed its comfort last season.

Enjoy it during the damp days of Spring, the chill days of Fall. Kleen-Heet goes on for an hour or two—takes off the chill—then automatically turns off. We offer 3 special inducements to 71 more home owners who act now.

What Kleen-Heet Brings. Kleen-Heet means a clean basement—a clean house throughout. Saves cleaning, labor and cost—saves the depreciation of furnishings that coal soot constantly seeping through the house causes. It means steady, uniform, healthful heat (instead of the constantly varying temperature of coal). Any temperature you desire at any time of the day or night. Simply set the thermostat. Its operation is completely automatic. Doctors say this kind of heat banishes 50% of Spring and Winter ills.

Kleen-Heet saves you the expense and uncertainty of janitor service. If you care for your own furnace, Kleen-Heet brings you extra leisure hours.

The Truth About Oil-burning. Each year oil-burning is supplanting coal heat in tens of thousands of homes. Each year the coal business grows smaller.

Today there is no longer any question as to the advantages of oil-burners. But in the maze of conflicting claims of many makers, it may seem difficult to decide which oil-burner will be best. And yet—knowing the facts—the solution is simple.

There are over 1200 oil-burners on the market. But, as in every industry, there are only a few leaders.

You want no oil-burner, certainly, that is not passed by the Underwriters' Laboratories. Then note these facts—

Out of only 24 automatic oil-burners listed as standard by the Underwriters' Laboratories—13 models are Kleen-Heets. Most makers have but one or two sizes that they try to adapt to all types of homes, large or small. Kleen-Heet has the widest variety of sizes and models of any oil-burner manufactured. You get the size and model exactly adapted to your particular type of home.

Here's Why Bankers Specify Liquid Granite Floor Varnish

Another new Chicago bank building—the Jackson Park National which includes stores, offices and apartments—is finished with Berry Brothers' Liquid Granite, the "Million Step Test Floor Varnish".

One varnish is as good as another—in a can. But on a floor, subjected to hard use, Liquid Granite stands up!

And right here is the reason that so many Chicago bankers are specifying Liquid Granite and other Berry finishes for their new buildings.

Bankers have the habit of making good investments. They are not given to extravagance. They want value for every cent they spend. And when bankers as a class show a preference for Liquid Granite by using it in their buildings there must be a sound, dollar-and-cents reason for it.

There's a Berry Dealer Near You.

# JAPS MAY ASK BRITISH QUIZ ON DROWNING OF 38

(Pictures on back page.)

New York, April 23.—(Special.)—The British admiralty is expected to take a hard line in the investigation of the sinking of the steamship *Homeric* to rescue any of the thirty-eight sailors who went down with the Japanese freighter *Rafuku Maru*, off Halifax.

In the usual course of events the admiralty would make inquiry into the sinking and the attending facts, but special cause for the investigation is found in a statement issued on behalf of the Japanese consul general, Kyo Kusanagi. This statement reads:

"Mr. Kono, manager of the *Kokoro Kisen*, which operated the *Rafuku Maru*, already has begun looking into the circumstances under which every member of the freighter's crew lost his life while the British ship was close by and it appears probable that an appeal will be taken to the British admiralty."

Captain Saw No Survivors.

Capt. John Roberts has filed out the customary report and it will be forwarded to the British admiralty in routine manner. Capt. Roberts had nothing to add to his explanation of why no rescue was effected. When the *Homeric* docked yesterday he said he had the life boats ready to lower, but could see no men struggling in the water or clinging to the wreckage, hence there was nothing to be gained by lowering the boats in the high-running sea.

Amos Finchot and other passengers testified they saw with the naked eye a number of men struggling in the water near the *Homeric*.

Crew Supports Captain.

All the 174 members of the *Homeric* crew signed a testimonial today to the

board of trade, supporting the actions of the commander, Capt. Roberts. The crew's statement asserted in part:

"Everything was done that any man could do to save lives under the circumstances. The ship was handled most admirably and we here testify our faith in and our admiration as a seaman for Capt. John Roberts."

Commanders of Atlantic vessels in port united in approving the course of Capt. Roberts. They said it would have been folly for the *Homeric* to have pushed closer than three-quarters of a mile to the sinking vessel, owing to the high seas and consequent danger of collision.

Clean-Up with the Handy  
Catch-All Rubbish Burner

[The Chicago Department of Health "urges  
the use of receptacles for the proper retention,  
care and disposition of household waste".]

Clean-up and stay cleaned-up. It's easy with the handy Cyclone Catch-All Basket.

Two of these convenient receptacles solve the trash disposal problem completely in the home. One Catch-All as a refuse container in the house; another for burning trash in the yard—that's the ideal combination.

The Catch-All Basket also is widely used for offices, stores, public grounds, parks, beaches, street intersections.

The Catch-All is good looking, sturdily built of heavy crimped wire, intersections electrically welded. The small mesh keeps burning fragments safely confined. 29 inches high, 20 inches in diameter at top. Heavy baked green enamel finish.

Get this useful basket now—at the special price during Clean-up Campaign only, \$2.45 each.

## STRIVE TO HURRY WORK ON 20 NEW PUBLIC SCHOOLS

Trustees Hope to Save 3  
Months' Time.

John E. Byrnes, business manager of the board of education, took a hand in the school building program yesterday and announced he would confer with contractors and ask that double shifts be put to work on buildings under construction. The program of new buildings for the last six months has been unsatisfactory, according to trustees, so yesterday Byrnes decided to act.

Contractors will be asked to have forces at work fourteen hours a day, if possible. With the six hours' additional work it is hoped to cut to nine months the year usually allowed for completion of a school building. Byrnes said the architect's office may have been with the construction program, employment of twenty additional men and designers was authorized. The increase will bring the staff to 100.

At present there are twenty schools, for a total of 15,000 to 20,000 pupils, under construction, all to be finished not later than September, 1926. Contracts for six more will be let in the next sixty days.

JOHN E. BYRNES.

## SENTENCE NEGRO MORON TO THIRTY YEARS IN PRISON

Jury Deliberates but  
15 Minutes.

A jury in Chief Justice Jacob Hopkins' court needed only fifteen minutes yesterday to find William Smith, colored, guilty of attacking a woman patient in the Cook county hospital four months ago. His punishment was fixed at thirty years in the penitentiary. He is the second Negro to be convicted in two days on similar charges.

The woman Smith attacked is 33 years old. She had been a patient at the hospital for five years, and during that time had undergone several operations. She was assisted by a nurse yesterday who helped her to the witness chair.

Tells of Crime.  
The evidence presented by Assistant State's Attorney Justin McCarthy was to the effect that Smith, who is 30 years old, had been released from the county jail two days before the crime. He had been jailed on a charge of burglary, but the grand jury had voted a no bill. The next day he entered the hospital as a patient.

On the morning of Dec. 19, Smith crept into ward 30, stuffed a handkerchief in his victim's mouth, and attacked her. Meanwhile his absence from the Negro ward was noticed. He was found wandering about the building. He was strapped to his bed.

Victim Identifies Attacker.  
"I'm going to take this bed with straps and all; I don't want to be a patient in this hospital any longer," Smith said, it was charged. At daybreak his victim identified him.

The other Negro was sentenced to serve thirty years for attacking a 50 year old woman.

Police were asked yesterday to search for John A. Hager, 14, who left home, 3139 Irving Park boulevard, Monday morning. The boy weighs 110 pounds, is 4 feet 10 inches tall, and wore a B. O. T. G. uniform.

## HOUGHTON, IN LONDON, HAS NO WORD ON DEBTS

[Chicago Tribune Foreign News Service.]  
LONDON, April 23.—Alanson B. Houghton, the new American ambassador to London, accompanied by his daughter, Matilda, reached Plymouth this morning on the United States liner George Washington. Arriving in London, he drove straight to Crewe House, which has been leased for his residence. The house is the property of Lord Crewe, British ambassador to Paris, and is one of the finest private houses in London.

On the way to London Mr. Houghton told this Tribune correspondent that he had no instructions regarding the proposed arms conference or European debts, and that he did not expect immediate action. He declared his belief in the stability of the German government, saying that even if Gen. von Hindenburg was elected there was not likely to be any change of policy.

Other passengers on the George Washington included Congressman Madden and Spruiell, who are going to Bath, and Congressman Fenn of Connecticut, on a holiday.

## AMERICA WILL WITNESS DRAMA BY MUSSOLINI

[Chicago Tribune Foreign News Service.]  
ROME, April 23.—Premier Mussolini has written a play, and America will see the first presentation. It is entitled "Gentlemen, We Begin," the expression used at the opening of the show, and it deals with gyppies and not politics.

Maria Dami, Italo-American actress, now playing in American successes here, has been given the right by Premier Mussolini to produce the play in New York next year, he hoping meanwhile to complete the last act.

Premier Mussolini began the play fifteen years ago. It contains a symbolism in that each musical instrument betrays the soul of the player. The plot concerns a girl who tells a man she believes to be her father that she has fallen in love with a gypsy minstrel. The man confesses that he is not her father and says he loves her more than the gypsy and wants her to marry him. Premier Mussolini did not finish the play, but now expects to solve the triangle.

Maria Dami also will produce "Fiandello" and other Italian successes.

## JUDGE SUSPENDS "BIG 5" PACKERS' CONSENT DECREE

Bar on Unrelated Lines  
of Business Lifted.

[BY A STAFF CORRESPONDENT.]  
Washington, D. C., April 23.—[Special.]—Virtual nullification of the consent decree under which the "Big Five" meat packers were barred from engaging in unrelated lines of business was ordered today by Justice Bailey in the District of Columbia Supreme court.  
The action was a far reaching victory for the Armour and Swift groups and for the California Cooperative Canneries, which commenced the attack upon the decree, and a defeat for the government and for wholesale grocery associations which have sought to prevent the packers from reentering the grocery business.  
Justice Bailey denied motions by Armour & Co. and Swift & Co. to vacate the decree. He granted, however, a motion by the California Cooperative Canneries to suspend the operation of the decree.  
Attorneys on both sides of the case were agreed that so far as the effect is concerned the decree is nullified for the time being, pending possible further proceedings in the court.  
Officials of the department of justice, which has defended the decree against all attacks, were not ready to state just what action would be taken upon the verdict and indicated that the matter would be carried to the higher courts.  
The decree was entered into originally by the "big five" meat packers at the instance of former Attorney General Palmer during the Wilson administration and was regarded by that administration as an important achievement toward preventing monopolization of food products by the meat packers.  
In rendering his decision, Justice Bailey held that the Armour and Swift companies are estopped from questioning the validity of the decree, in view of their participation in it, and that

## GRIDIRON CLUB KIDS COOLIDGE IN 3 RING CIRCUS

Washington, April 23.—By way of celebrating the fortieth anniversary of its foundation, the Gridiron club of Washington newspaper correspondents, at its spring dinner tonight, devoted its entertainment to Coolidge's Constitutional circus, a three ring affair in which public men and affairs got the usual good natured teasing.  
A distinguished company of guests enjoyed the fun, much of it at their own expense. President Coolidge headed the list and was accompanied by eight members of his cabinet. Five new members of the diplomatic corps, Chief Justice Taft, Nicholas Longworth, General Pershing, governors of states, financiers, newspaper publishers, authors and men in public life, were among the company. J. Fred Essary, correspondent of the Baltimore Sun, is the new president of the club.  
Among the speakers were President Coolidge and Will Rogers, the comedian.  
Club officials made public a letter from Chauncey Depew, who today celebrated his 81st birthday, recalling that he is the sole survivor among the guests at the first Gridiron dinner. He recounted incidents at other dinners, and said the periodic grillings had "disipated the brainstems" of many public men chased with their importance and brought them back to earth.

nally by the "big five" meat packers at the instance of former Attorney General Palmer during the Wilson administration and was regarded by that administration as an important achievement toward preventing monopolization of food products by the meat packers.  
In rendering his decision, Justice Bailey held that the Armour and Swift companies are estopped from questioning the validity of the decree, in view of their participation in it, and that

therefore their motion to vacate it must be denied. The court held the decree to be valid so far as the agreement by the packers to do certain things was concerned.  
Suspended as a Whole.  
Suspension of the operation of the decree was held by Justice Bailey to be warranted because of the situation affecting the California Cooperative Canneries, which had a contract by which Armour & Co. was to handle its canned products. The canneries, the court held, suffered damage by reason of the inability of Armour & Co. to carry out its contract because of the consent decree.

Justice Bailey said that his first thought was to suspend the operation of the decree only so far as the California Cooperative Canneries was concerned, but he concluded if suspended at all it should be suspended as a whole.  
"The original decree in this case was entered without the taking of any proof and without the admission of any facts, and may be considered as little more than a contract between the parties sanctioned by the court," said Justice Bailey in his decision.  
"Had this decree been entered upon the taking of proof either by formal testimony or by admission of the parties, I think the burden would have been upon the intervenor to show that the consent decree did not justify the decree. The pleadings show that intervenor has a substantial interest, that its contractual rights have been impaired by entry of this decree and that it is damaged by it."  
"If there was even proof to show that the defendants had violated or were about to violate, the laws of the United States, the situation would be different, but, as I have said, there was no such proof. It is clear that the canneries is being damaged by the continuance of this decree, and, while I do not think that the decree should be vacated in the present state of the pleadings, I do think that the operation of the decree should be suspended."

**FUTURE ACTION UNDECIDED.**

## WILBUR ORDERS 6 OFFICERS TRIED ON RUM CHARGE

Washington, D. C., April 23.—Orders were signed today by Secretary Wilbur for court martial of six officers on charges growing out of the raid on the naval transport Beaufort at Norfolk, Va., on Feb. 24, when a quantity of liquor was seized on its arrival from the West Indies.  
The case is expected to be designated soon and will convene for the trial at Hampton Roads.

Charges against the other officers allege possession of liquor on board and smuggling liquor into the United States. The officers are Lieut. Fred M. Rohow, Surgeon Bay, Wia; Lieut. R. D. Hill Jr., Norfolk, Conn.; Lieut. Clarence W. Baker, Newport, R. I.; Machinist Frank M. Hendricks, New Haven, Conn., and Chief Pay Clerk J. P. Gallagher, Norfolk, Va.

## British Food Commission to Ask Meat Trust Control

[Chicago Tribune Foreign News Service.]  
LONDON, April 23.—The food commission, headed by Sir Auckland Geddes, investigating the high cost of living, met today for final consideration of its report on meat and food prices. It is understood that the report will recommend firm government control and supervision of the meat trust. They also will recommend creation of a permanent central food council to crush the profiteers.

It takes healthy gums to keep healthy teeth  
If you neglect your gums—let them get in a "run-down" condition—you may soon be numbered among Pyorrhea's countless victims.  
Bleeding gums are Nature's first warning. Then the gums begin to recede, lose that rich, healthy pink color. Poisons collect in pus pockets and often drain through the entire system, causing indigestion, anemia, rheumatism and other serious diseases of mid-life. In the final stages the teeth loosen and fall out.  
Take no chances—use Forhan's  
If used in time and used consistently, Forhan's will prevent Pyorrhea, or check its progress—something ordinary tooth pastes are powerless to do. It contains just the right proportion of Forhan's Astringent (as used by the dental profession in the treatment of Pyorrhea). It is safe, efficient and pleasant tasting. Even if you don't care to discontinue your favorite dentifrice, at least start using Forhan's once a day.  
Forhan's is more than a tooth paste; it checks Pyorrhea. Thousands have found it beneficial for years. For your own sake ask for and get Forhan's For the Gums. At all druggists, 35c and 60c in tubes.

An Effective, Pleasant, Scientific Method of Moth Prevention—Bearing U. S. Government Approval

The U. S. Department of Agriculture, in connection with their extensive tests on moth prevention, says:  
"We have been able to kill moths readily by placing boards impregnated with cedar oil in ordinary chests."  
This means that you can make every drawer, every box, every chest and every clothes closet as free from moths and their destruction as is the finest cedar chest. You can do this simply and cheaply by using

## CEDO-BLOCS

CEDO-BLOCS are highly impregnated with the moth-killing and moth repelling cedar oils. Their refreshing fragrance—so delightful to you—is fatal to the moths.

### A BREATH OF THE FOREST

# DEMPSEY MOVES ON NEW YORK AND MAY STAY THERE

## TRIBUNE DECISIONS

Decisions of Tribune boxing representatives are:

At Fort Thomas, Ky.—Bill Fennell and Young Corbett boxed draw (10). Ed Hawthorne and Ray Grimsby boxed draw (4). Other than that the Tribune has no opinion on the matter.

New York, April 23.—[Special.]—Jack Dempsey, who wants to cling to the title of heavyweight pugilistic champion, staid into town today and saluted a lot of the boys who met him at the train. As in Chicago, he told all the lads who were seeking some inside "info" that he was going to fight again, that he didn't care whom his "fight manager," Jack Kearns, picked, as long as he got his prize, and that he was in the movie business, and that he might go to Europe. Other than that he imparted nothing that would set the sports world afire, but he did let loose of something that his pugilistic friends on the coast may resent, at least those who are remaining since his debut in the Hollywood movie colony. Jack thinks he will move bag and baggage to New York, live there.

Perhaps it's a Stall.  
Perhaps he said it to make his friends here happy in the belief they would have him as a daily associate. Perhaps he said it to boost the stock of the movie he presently will put before the public. In it there are some Romeo and Juliet scenes, minus the balcony and sixteenth century costumes. The Dempseys, who of course do all the heavy work, operate in the usual up to date "soup and fish" while doing their "Gazelle" stuff.

Only about 200 fans greeted the champion at the station where he announced he was feeling a bit under the weather due to something that did not get well acquainted with his stomach. It was nothing serious and after a rest at his hotel, he was pronounced fit to talk again.

They Talk Fight.  
Dempsey later in the day received Tex Rickard and after a conference said he would be able to box under the direction of the promoter within three months. The Dempseys, who of course do all the heavy work, operate in the usual up to date "soup and fish" while doing their "Gazelle" stuff.

## GREAT WESTERN TRAPS TOURNEY AT HAWTHORNE

Plans were announced yesterday by the Western Amateur Trap Shooting association for the Great Western handicap tournament to be staged at the Hawthorne race track May 25-26-27.

The championship will be decided over fourteen traps, which will be placed in a straight line in the race track infield, making it possible for spectators to see the result of every shot from the grand stand and clubhouse verandas.

The tournament carries the largest cash prizes ever offered at a trap shooting contest. The winner of the Great Western handicap, a 100 target event, is guaranteed \$1,000.

## FIRPO SAILS FOR HOME AFTER HE SIGNS FOR BOUT

CHERBOURG, France, April 23.—Luis Angel Firpo, Argentine boxer, sailed today on the steamship Florida for his home in Buenos Aires. Firpo signed an agreement in Paris yesterday to meet the Spanish heavyweight boxer, Paolino, at Bilbao, Spain, early in September. Firpo said he will return to Europe in June to commence training.

## HOUCCKS LEAD STATE PIN MEET

The Houck pin team of the Windy City alleys went into the day man lead in the Illinois State Bowling tournament at Peterson's last night. The new leaders pulled a total of 2,533 pinples, while the Broad-Belt-Martin squad tumbled 2,391 to take second position. In the doubles J. Platter and C. Hyland made 1,145, and H. Morbach and M. Studebaker marked up 1,160 for the high score of the night in this section. R. Anderson had the best singles score, 629.

## SMITTY—THE SURPRISE PARTY!

## STRAIGHT FROM THE SHOULDER

MORE confidential news was received in this office last night that Jack Dempsey had quit the ring for good and was about to go to Europe. He was a screen for what he really hopes to do—set the world afire as a movie actor.

As stated in these columns repeatedly, Dempsey is through as a fighter regardless of what he says to newspapers—which haven't done anything for him, as so aptly put by a friendly contemporary—about wanting to sign for a match. Jack Kearns, his "fight manager," according to the information at hand, had two bouts all figured up for the vicinity of New York, but when the facts were put to Dempsey, he vetoed the plan. This action forced Kearns to hop back to the coast. Is it any wonder there was friction when they met?

Yesterday New York scribbles went through the same punishment as did the local boys the day before. Jack was glad to see them all, spent a lot of time telling them that he was going to fight again. He saw Rickard and both said there was going to be a fight, but that was expected.

Dempsey has a little matter of eligibility to discuss with the New York boxing commission. That will promote a little more publicity, and the retired champion and his wife may depart for a honeymoon in Europe.

The information regarding the sure shot retirement of Dempsey received from the coast in part follows:

"The Dempsey situation is just as recently outlined to you. THE CHAMP WILL NEVER FIGHT AGAIN! Jack Kearns is satisfied on that point and is evading the issue—as he figures he is being used as a medium to help the box office receipts of the new Dempsey-Dempsey picture. Incidentally the only chance the picture has of 'scoring a hit in coin' is by perpetual publicity of the kind already caused by the 'see Doc' variety."

"Away down deep in Kearns' diaphragm, he's bitter against the machinery of the Dempsey cohorts. For you may chronicle that on TWO OCCASIONS, DEMPSEY JACK HAS RUSHED TO NEW YORK TO CLOSE A COUPLE OF MATCHES ONLY TO RECEIVE WORD AFTER HE HAD REACHED NEW YORK, NEW YORK, TO SIGN, thus causing a reflection as to the status of Kearns having any jurisdiction to append his [J. K.'s] signature."

"And that's all from us, re Jack Dempsey, for the present."

## OVERALL VICTOR IN HAVRE RACE; SINGLE FOOT 2D

HAVRE DE GRACE, Md., April 23.—[Special.]—J. E. Griffith's Preakness and Kentucky Derby candidate, Single Foot, making his first appearance as a 3-year-old, this afternoon failed to concede sixteen pounds to Harry Payne Whitney's Overall in the Fleetwood handicap over a course of a mile and seventy yards, and was beaten by the Whitney colt, a maiden, by three-quarters of a length. While defeated, Single Foot was not disgraced, and his stock should continue strong for the classics to come.

Five Derby eligibles went to the post, the others being W. J. Salmon's Devonshire, W. M. Jeffords' By Himself, and J. E. Condon's Cloudland; the latter being the outsider of the party.

WHITNEY INDOOR NINE WINS.  
The Whitney indoor squad defeated All-Nations in the final game of their series at Gable Hill center last night, 11 to 6. With nothing more to play, the team was crowned champions.

## PROMOTER 'THE GOAT' IN RING DATE WAR

BY HENRY L. FARRELL.  
New York, April 23.—[United Press.]—Early skirmishes for dates has started a first class battle among the boxing promoters in New York that will result in some serious bag holding before the end of the outdoor season.

The schedule, as it now stands, calls for three big bouts between May 29 and June 19, and even the size and spending disposition of a New Yorker can hardly pay the freight on such a cargo.

Rickard Refuses to Change.  
Paul Serfenbach and Mike McGigue meet for the world's light heavyweight championship on May 29 in the Yankee stadium. The boxing commission wanted Tex Rickard to take an earlier date, but he refused. Tom Gibbons and Gene Tunney are matched for June 5 at the Polo grounds, and on June 19 a benefit show at the Polo grounds will bring Harry Willis and Charley Weiner and Mickey Walker and Harry Greb together.

Rickard probably would have been willing to accept another date for the McGigue-Rickard show if some promoter other than Charles A. Stoneham had not been caught in the middle. Rickard and Stoneham haven't been on friendly terms since Rickard was asked to get the owners of the Giants out of the hole last summer when business was bad.

Will Not Draw—Tex.  
"Gibbons and Tunney are getting \$175,000 and the match won't draw that much," Rickard said. "I used Gibbons, Tunney, and Greb in the Garden when they were going good and they didn't draw more than \$70,000. None of them has a big following in New York."

"The card at the Polo grounds for the Italian hospital will cost more than \$225,000 and I don't see where there will be anything left for charity. Willis is getting \$60,000, Walcott \$25,000, Greb \$50,000, and Walker \$30,000, and in addition the rent of the park has to be taken out and the other incidents of promotion, which are costly."

It is likely the Gibbons-Tunney match, which is caught in the middle, will be postponed until the middle of the season.

## LAYTON DOWNS AUGIE TWICE; NEARS RECORD

John Layton grazed a world's record in the first of his National Three Cushion league games with Augie Kleckhefer at the latter's room yesterday afternoon by turning in his 50 points in twenty-five ballings. Had he added four to his high run of 9 in one of the later frames he would have broken the low fanning record.

Layton won the afternoon game, 50 to 37, and the evening game, 50 to 48, in sixty-two innings. Layton's high run was 5, while Augie registered 7 in the first and 5 at night.

## Additional Capital Required

**B**Y a 33-year old Chicago Company, manufacturing the highest grade tools and machinery, whose reputation and products are internationally known. Eight years ago, this Company added a new staple product which is rapidly taking high rank with their internationally known products, and is a leader in one of the country's foremost industries. Owing to the exceptionally large increase in demand for this product, additional capital is required.

The Company is in excellent financial condition, own their own property and buildings, enjoy the highest credit, and their assets are several times the amount of additional capital required.

In the past ten years, the Common Stock has paid six for one; and prospects indicate even larger profits in the future. It is conservatively estimated that this years output will triple that of last year. The manufacturing plant and general offices are located in the heart of Chicago.

Full details given upon request. We invite the  
closest investigation.

## Executive

who has had over twenty years of uncommon sales and general executive experience, seeks a worth while connection.

Until recently, when he entered into an independent venture which collapsed for reasons beyond his control, he was General Manager for a large Eastern

manufacturer of specialties that enjoys international distribution.

Before that, he was Marketing and General Business Counsel to a number of manufacturers, among whom was the firm for which he subsequently became General Manager.

He is forty-one, a veteran salesman, a hard worker and in the best of health.

A close student of methods, costs and results who has

proven his ability to make good as General Manager.

**HOW JAPANESE CREW OF THIRTY-EIGHT WENT TO OCEAN GRAVE.** This picture, showing some of the superstructure of an upper deck of the *Homeric*, indicates how close that ship was as the Japanese freighter sunk, still tipped on one side. Rescue by small boats from the *Homeric* was found impossible. (Story on page 17.)

**LAUNCHING A HOMERIC LIFEBOAT.** In futile effort to rescue crew of Japanese freight steamer that sank off the Nova Scotia coast, April 21, while both Homeric and Tuscania were almost within reach, but could save none because of storm.

BY JOHN CLAYTON.

(Chicago Tribune Foreign News Service  
Copyright: 1925: By The Chicago Tribune)  
BERLIN, April 24.—Former C.  
Prince Friedrich Wilhelm sees in  
victory of Gen. von Hindenburg  
Sunday's presidential election, w  
he regards as a foregone conclusio  
great chance for the restoration  
monarchy in Germany.

The former crown prince was President of the day, and was visiting at home of Prince Kitel Friedrich, a grandson of Hohenzollern prince who make their homes in or near Berlin at present, is being held. Taking part were Oscar, Siegmund Adolf, Friedrich, and Karl.

THE TRIBUNE correspondent on the former crown prince at the war station just before he departed for Oels with the former crown prince and their sons in his private train. The interview was hurried and brief but the former crown prince paid tribute to the heroism and devotion of the monarchists, who have risen to the highest point with the nomination of the field marshal.

**Calls Marx Tainted by Swindle**  
"Why" was Gen. von Hindenburg nominated by the nationalists inst. of Dr. Janner?"

Through the nomination of C. von Klaffenburg things are made certain in a military and material sense for the Fatherland.

"Will Gen. von Hindenburg win? Herr Marx is too deeply concerned in the swindle affairs of Barmat to do so. A great part of the electors shun him and Gen. von Hindenburg will be given a majority."

### Sees No Civil War Danger.
